File: Base Configuration E5 [BaseConfigurationE5.icl]

Parameter	convertEEOEthnicCategory			
Description	Convert EEO Ethnic Category			
Value	Y			
Comments	We will convert your Ethnic Categories if needed. If your data contains an older version of the Ethnic Category (codes), we will convert to the Ethnic Category (codes) required for EEO-1 Component 1. The conversion takes place automatically when you 'Publish' to create the upload file. Based on the table below, if the old codes are assigned to your employees, set the Value to 'Y' to convert to the new values. If you use the new codes, set the Value to 'N'. If you have a combination of old and new values, please contact HarrisData Support. <table><thead><tr><th>Ethnic Category</th><th>Old Code</th><th>New Code</th></tr></thead></table>	Ethnic Category	Old Code	New Code
Ethnic Category	Old Code	New Code		

Depending on your setup you will need to change the Value field

Parameter	convertEEOJobCategory
Description	Convert EEO Job Category
Value	Y
Comments	We will convert your Job Categories if needed. If your data contains an older version of the Job Category (codes), we will convert to the Job Category (codes) required for EEO-1 Component 2. The conversion takes place automatically when you 'Publish' to create the upload file. For Example You need to convert if your EEO-1 Job Category set up has: 1.1 - Executives 1.2 - First/Mid Level Mgrs 2 - Professionals 3 - Technicians - Etc.
