

List Widget Schedule Download

Introduction

Provide the ability to schedule a job to run the download of a list widget for specific saved filter criteria.

Objective

Enhance the List Widget Filter Selection:

- Display an icon **S** to allow the user to schedule a list widget download to CSV.
- The generated CSV file will be available from My Portal -> My Reports (CSV).
- Any changes to the saved filter will automatically be applied to the scheduled download job the next time it is executed.

List Widget Schedule Download

Filter Selection

The Filter Selection page (Figure 1) will be changed to display an icon **S** to allow the user to schedule a list widget download to CSV. This option will only display if the Page definition (Figure 2) has Allow CSV Download. When the link for **S** is selected, the Download to CSV Selection page (Figure 3) is displayed.

Download to CSV Selection

The Download to CSV Selection page (Figure 3) provides the following functionality:

- Home  icon will close the window and return to the Filter Selection (Figure 1).
- Process  icon will Submit/Schedule the download to run.
- Schedule Job  icon will display the schedule job parameters (see Figure 4).

Reports in CSV for (user)

When My Portal -> My Reports (CSV) is selected, the Reports in CSV for (user) is displayed (Figure 6) with the following options:

- Use the delete icon  to remove any obsolete files.
- Use the download icon  to copy the CSV file to your download folder.
- Select the link on the File Name to display the contents of the CSV file (see example in Figure 7).

The File Name is automatically generated using the following variables separated by an underscore:

- Page Maintenance -> Header 1 (Figure 2)
- Selected Filter Name (Figure 3)
- System Timestamp
