

Order Creation in Harris

- 1) Log into EIP
- 2) Go to the “customer page”
- 3) Find the correct customer
- 4) Enter “*xxxx*” where xxxx= a portion of the customer name. OR
- 5) Enter the customer number, if you know it OR Enter the zip code – this is not preferable because not all zip codes are listed correctly. This will return a list of customers that have the xxxx portion in their names
- 6) Click on the correct customer you want to enter an order for
- 7) This will take you to the “customer history” page
- 8) Click on “create new order” – this opens the “Order Entry” page
- 9) For NON-STOCK items (Art, Die, Freight, etc. charges) Click “N” to add the part that has no SG Part number – this will take you to the “Item Detail” page.
 - a. Fill in all of the information, including COST.
 - b. Description – take the description off the quote – i.e. 2C wht Vinyl dig
 - c. Qty Ordered – enter the quantity the customer is ordering
 - d. Entry Code – do nothing with this
 - e. Unit Price – should match the quote – enter it
 - f. Stocking U/M – must be “EA”
 - g. Pricing U/M – Must be “EA”
 - h. Product Class – Click magnifying glass to get Product Class – either QM or QP – Qmanufactured or QPurchased
 - i. Required Date – enter when the customer wants the order delivered
 - j. Commission % - leave blank
 - k. Allow Back Orders – always “yes”
 - l. Taxable – Click on magnifying glass – get “Y” or “N”
 - m. Customer Item Number – leave blank
 - n. Product Group – leave blank
 - o. Abnormal Demand – leave blank
 - p. Click on check mark to save & update the record – This will take you back to a new blank record in case you want to add more parts to the order.
 - q. If you have more parts to add that do not have SG part numbers assigned, go back to # 3 above and continue until you have no other parts to add that do not have part numbers.
- 10) If you now have additional parts to add to the order that DO have SG/SGMS Item Master part numbers, click on “ITEM” at the top left of the page. This will take you to the “item page” :
- 11) Fill in “Add Item” box with the part number to be added to the order if you do know the part number.
- 12) Fill in the “required date”- fill in manually or click the calendar
- 13) Quantity – fill in the quantity to be added to the order
- 14) Warehouse – fill in appropriate warehouse IF it is not the default.
- 15) Click on the shopping cart to add this part to the order.
- 16) If you do not know the part number, click on the magnifying glass next to the “add item” blank and this will take you to the “item search page”
- 17) Put in “*ZZZZ*” where zzzz is part of the customer’s part number, click on the magnifying glass and you’ll get back all part numbers that have “zzzz” in them.
- 18) Fill in the order quantity
- 19) Click on the shopping cart next to the quantity blank to add this part to the order.
- 20) Close the “Item Search Page” and go back to the “Order Entry Page.
- 21) The Order Entry Page is the summary of what the order looks like at that time.
- 22) Click the “Header” tab

- 23) Reference Number – This is the customer reference number (i.e. PO or CC info, etc.)
- 24) Terms code – filled in by the system
- 25) Hold Code – Leave blank for future use
- 26) Salesman – filled in by the system.
- 27) Split Salesman – filled in by the system
- 28) Ship Via – filled in by the system. Can be changed by clicking on magnifying glass to see options and select one
- 29) Mailing Code – Use “Lenn’s rules”
- 30) Customer Service Rep – Use “Lenn’s rules”
- 31) Skip ALL Credit Card info on the rest of this page
- 32) Tax Code – filled in by the system.
- 33) Tax Definition – filled in by the system.
- 34) Click on “check mark” to save the changes
- 35) Still on the Order Entry Page –
- 36) Click on the “COMMENTS” Tab – this will take you to the “Comments Page”
- 37) Review the CUSTOMER TRAILER comments for relevance and make any appropriate changes.
- 38) Click on “ORDER HEADER” notepad and enter whatever comments you wish. If Customer record has comments (easy to see on the right of the page) you must choose the OPPOSITE option for ALL comments to appear on documents. IE: If Customer has trailer comments, your order must have header comments. Or vice versa. **ORDER comments cannot be the same type (header/trailer) as CUSTOMER RECORD otherwise the Customer record comments will not appear on the order! See Figure 1****
- 39) Click on “check mark” to save this information
- 40) Click on “Copy Record” – takes you to the “Comments Copy Page”
- 41) Fill in the “copy to” – NOTE: Always click on “replace”
- 42) Click on Check mark to save
- 43) Go the Credit Card tab
- 44) Credit Card Number – click on magnifying glass or add manually
- 45) Click Check Mark to save
- 46) Click on “Review” tab – this will allow you to review the entire order before it is accepted and recorded as real order in the system.
- 47) If you are satisfied that the information in the order is correct, Click on Check Mark to save and accept the order
- 48) Done
